- Problem Solving

Experience

Data Science Intern, CodSoft Remote, Kolkata 5 July-Current

- Selected for the CodSoft Virtual Internship Program (Batch: July B38) as a Data Science Intern.
- During this 4-week internship, I'm working on hands-on Data Science tasks involving Python, data cleaning, visualization, and model development. I'm maintaining a GitHub repository for the projects and actively sharing task demos on LinkedIn.
- Key responsibilities:
- Solving real-world Data Science tasks
- Documenting projects on GitHub
- Posting progress and demos on LinkedIn
- Collaborating via Telegram and email
